Professional Summary

Frontend Developer with 2+ years of experience building responsive and scalable web applications using React.js and Tailwind CSS. Strong in developing reusable UI components and improving performance through lazy loading, code-splitting, and efficient state management using Redux Toolkit and RTK Query. Solid foundation in JavaScript (ES6+), HTML5, and CSS3, exposure to TypeScript. Experienced in collaborating with designers and backend teams to deliver clean, accessible, and maintainable user interfaces for real-world products.

Experience

Software Developer

July 2024 – Present

Winspire Tech Pvt. Ltd., Bangalore

- Developed reusable and responsive UI components using React.js and Tailwind CSS.
- Collaborated with designers and backend engineers to deliver user-friendly features.
- Integrated RESTful APIs and optimized API data handling with RTK Query.
- Basic understanding of CI/CD workflows using GitHub Actions.

Applicant Tracking System (ATS) — Frontend Developer

- Built production-level ATS modules using React.js, Tailwind CSS, and REST APIs.
- Implemented efficient global state management with Redux Toolkit and RTK Query.
- Enhanced page performance using lazy loading, code-splitting, and optimized rendering logic.

Vendor Logistics Management Platform — Frontend Developer

- Developed React.js UI components for vendor workflows including forms, tables, and data modules.
- Improved design consistency using shared component libraries and design tokens.

Projects

AI Job Copilot - Currently Developing

Self-Initiated Project

- Developing an AI-powered Job Copilot to assist job seekers with resume analysis, job matching, and stores the application status of applied jobs.
- Building frontend using Next.js and Tailwind CSS.
- Integrated AI APIs to generate job suggestions, resume improvements, and interview preparation guidance.
- Implementing clean component architecture and optimized UI performance for smooth user interaction.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, RTK Query, Context API

UI / Styling: Tailwind CSS, Material-UI (MUI)

Tools: Git, GitHub, Vite, npm, GitHub Actions.

Backend: Node.js, Express.js, REST APIs, MySQL

Other: Component Architecture, Responsive Design, Performance Optimization

Additional Knowledge

Core Java Concepts, Prisma ORM, Styled Components, Bootstrap, MVC Architecture, Lighthouse, Web Vitals, Data Structures & Algorithms (ongoing LeetCode practice).

Education

M.Sc. in Computer Science

2020 – 2022

Gulbarga University, Kalaburagi

CGPA: 7.8

Keywords: React.js, Next.js, Redux Toolkit, RTK Query, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Material-UI, Responsive Design, REST APIs, Agile, UI/UX Collaboration, Performance Optimization
